AIX agent installation error - sar: time change not positive

You may encounter the following error during installation of the Uptime Infrastructure Monitor AIX agent:

```
Checking to see if perfparse returns valid columns
sar: time change not positive
/opt/uptime-agent/bin/perfparse.sh[28]: %usr: 0403-057 Syntax error

Sorry invalid parameters in CPU test please contact support
sar: time change not positive
```

This error is caused by a problem with the local AIX version of sar and sadc. For information on resolving this issue, please refer to SAR error and SADC problems on AIX.

> **Note**
>
> The agent not returning CPU and Disk Stats is another symptom of the same root cause

.
