

# How to get custom script retained data values

Use the following SQL queries to return values for the specified data types.

## Integer Data

```
SELECT e.name,p.name,d.value,d.sampletime FROM erdc_int_data d, erdc_instance e, erdc_parameter p  
where e.erdc_instance_id = d.erdc_instance_id  
and p.erdc_parameter_id = d.erdc_parameter_id  
and e.name like "INSTANCE_NAME";
```

## Decimal Data

```
SELECT e.name,p.name,d.value,d.sampletime FROM erdc_decimal_data d, erdc_instance e, erdc_parameter p  
where e.erdc_instance_id = d.erdc_instance_id  
and p.erdc_parameter_id = d.erdc_parameter_id  
and e.name like "INSTANCE_NAME";
```

## String Data

```
SELECT e.name,p.name,d.value,d.sampletime FROM erdc_string_data d, erdc_instance e, erdc_parameter p  
where e.erdc_instance_id = d.erdc_instance_id  
and p.erdc_parameter_id = d.erdc_parameter_id  
and e.name like "INSTANCE_NAME";
```
