

How to export Uptime Infrastructure Monitor documentation to a PDF file

Follow these steps to generate a PDF file containing all or selected sections of the Uptime Infrastructure Monitor documentation set:

1. Go to [Uptime Infrastructure Monitor Documentation Home](#) (or the desired documentation section).
2. Click Browse / Space Operations at the upper left part of the page.
3. Select PDF Export.
4. Select Normal to export the complete space or Custom to choose specific sections.
5. Click Export.
